

Mission Statement

"Operation Living Hope"

Our mission is to partner in personal crises and supply sustainable help to hungry families, hard to employ, vulnerable, and suicidal. We serve folks who are vitally in need of Living Hope and work to rescue these from pain of abandonment and hopelessness. We provide alternatives that will bring purpose, potential, hope, and a future to their lives. We concentrate on helping folks whose lives are in need of repair by implementing the Good Samaritan model, hunger relief, nutrition education, mentoring toward self-sufficiency, family seminars, and active loving and caring involvement in their lives. We find folks chronically unemployed, hungry, suffering oppression, homeless, in perpetual poverty, behind bars.
